ELIGIBILITY CONDITIONS AND REQUIREMENTS

Procedures for Scheduling and Conduct of Standard Surveys

The State has in effect the following procedures for the scheduling and conduct of standard surveys to assure that it has taken all reasonable

Unannounced surveys. The Department of Health and Environmental Science (DHES), as the survey agency, has developed an official policy through the Health Facilities Division to conduct unannounced inspections. A copy of that policy is attached.

Additionally, DHES conducts standard surveys of Survey frequency. ursing facilities using a master schedule developed around a 12-month rerage interval. This procedure gives DHES the necessary flexibility to schedule facility surveys based on the facility's compliance history or consumer complaints. Thus, surveys of problem facilities may be scheduled sooner and with less predictability than if a regularly scheduled annual survey were used.

Policy: Health Facilities Division

Subject: Unannounced Inspections

<u>Policy:</u> It is the policy of the Bureau to conduct all health care licensure and certification inspections unannounced, as required by Montana State Code 50-5-204 and HCFA SOM 2700.

## Procedure:

All licensure and certification inspections will be unannounced unless special circumstances intervene.

If circumstances are encountered that would require an announced inspection, notify the Bureau Chief or Division Administrator.
